

## CyberPro CP-UM10 USB v2.0 M – Micro USB M 1m

### Description

The Micro-USB connector is now being widely adopted by cellphone and PDS manufacturers; These include various types of battery chargers, allowing Micro-USB to be the single external cable link. You are allowed to transfer your data from you cellphone to a laptop with speed up to 480Mbps through USB 2.0 port (backwards compatible with 1.0, 1.1).
